Objective

Self-driven and motivated student with a strong interest in continuously learning and improving technical skills. Eager to apply academic knowledge and hands-on project experience to solve real-world problems, contribute effectively to organizational goals, and grow professionally through meaningful challenges in a dynamic work environment.

Education

B.Tech in CSE, KKR & KSR Institute of Technology & Sciences, Guntur, AP 2024 – 2028
CGPA: 9.01

Intermediate (MPC), Palnadu Junior College, Macherla, AP 2022 – 2024
GPA: 9.7

Schooling (SSC), Adarsh High School, Macherla, AP 2022
Percentage: 9.2

Skills

Programming Languages: Python, C, Java

Web Development: HTML, CSS

Database: SQL

Tools & Platforms: VS Code

Languages: English (Fluent), Hindi (Beginner), Telugu (Native)

Projects

Portfolio Website

Designed a personal portfolio website to showcase skills, projects, and professional details. The website includes an About Me section, project gallery, and contact form to improve user interaction.

Smart Bin Bot

Co-developed a sensor-based, cloud-integrated smart dustbin system to monitor waste levels in real time. The system automatically alerts municipal teams when the bin is full, enhancing hygiene and waste management efficiency.

Certifications

- **NPTEL:** Programming Through C, Java
- **Code Clause:** Web Development
- **Codetantra:** MERN Stack Bootcamp

Extra-Curricular Activities

- Active participant in college and department-level technical activities.
